

**Order Form**  
***100 Points of Light: A History of Science at Hanover College***  
**By Stanley M. Totten, Ph.D.**

The book, *100 Points of Light: A History of Science at Hanover College* profiles the top 100 scientists who graduated from Hanover, plus the faculty who taught them. It contains many photographs and illustrations, culled from Hanover's archives and other sources. In addition to the faculty and alumni Hanoverians will recognize, there are also interesting pieces of information about Hanover's history. Proceeds benefit the Ross Hubbard Geology Gift Fund which supports the Science Center Museum. The books make great gifts and pricing includes tax and shipping.
